

HAMMAD HUSSAIN

Full Stack Web Developer | MERN Stack | WordPress

+92 3497818575 | mh164009@gmail.com | Jhang, Punjab, Pakistan

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with hands-on experience building scalable MERN stack applications, custom WordPress themes, and Shopify e-commerce solutions. BSIT graduate with a proven track record of delivering end-to-end web solutions for clients across various industries. Skilled in REST API development, role-based authentication, and responsive UI design. Committed to writing clean, maintainable code and continuously adopting modern development practices.

TECHNICAL SKILLS

Frontend: React.js, React 18 + Vite, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Chart.js, Responsive Design

Backend: Node.js, Express.js, REST API Architecture, JWT Authentication, MongoDB, Mongoose

CMS & E-Commerce: WordPress (Custom Themes & Plugins), WooCommerce, Shopify (Liquid), Elementor

Tools & Others: GitHub, PHP, Postman

Soft Skills: Problem Solving, Team Collaboration, Leadership, Effective Communication, Time Management

WORK EXPERIENCE

Full Stack Web Developer

Jun 2024 – Present

Self-Employed (Freelance) | Remote

- Design and develop full-stack web applications and high-performance websites for agencies and businesses worldwide.
- Build scalable MERN stack applications with REST APIs, backend architecture, and admin dashboards with role-based access control.
- Develop custom WordPress themes and e-commerce platforms using WooCommerce and Shopify (Liquid).
- Deliver end-to-end project implementations covering UI/UX design, API integration, and deployment.

WordPress Developer

Nov 2025 – Dec 2025

Appverse Technologies | Remote · Internship

- Developed custom WordPress themes and plugins using HTML, CSS, JavaScript, and PHP.
- Built responsive themes, custom post types, and API-based plugins following WordPress coding standards.
- Contributed to performance optimization, debugging, and real-world project implementations.

PROJECTS

Learning Management System (LMS) — React 18, Vite, Node.js, Express.js, MongoDB, JWT, Cloudinary

- Built a full-featured LMS with role-based dashboards for Students, Instructors, and Admins.
- Implemented live class integrations (Zoom, Google Meet, Jitsi), assignment submission & grading, and course progress tracking.
- Developed digital ID cards with QR codes, an affiliate/referral system, and payment verification workflow.
- Designed clean, responsive UI with dark/light mode support using a custom CSS design system and Chart.js analytics.

Multiple E-Commerce Platform — React, Node.js, Express, MongoDB, JWT, Tailwind CSS, Redis

- Developed a full-stack e-commerce platform with an admin dashboard for product and inventory management.
- Implemented JWT-based authentication and role-based access control for secure admin operations.
- Built shopping cart, wishlist, order management, and payment processing features.
- Optimized API performance using Redis caching for high-traffic handling.

Hospital Management System — React, Node.js, Express, MongoDB, Tailwind CSS

- Built a comprehensive hospital management system with appointment booking functionality.

- Developed doctor profile management, department listings, and patient registration modules.
- Created admin dashboard for managing appointments and doctor schedules with secure data handling.

AI-Based Phishing Detection System (FYP) — Python, BERT, CNN, SMOTE, Gradio

- Developed a hybrid machine learning model combining BERT and CNN for phishing URL/email detection.
- Applied SMOTE to address class imbalance and improve model accuracy on minority attack classes.
- Deployed the solution via Gradio for real-time interactive predictions.

Custom WordPress Theme Development (WebX & CodeX) — WordPress, PHP, JavaScript, ACF, Gutenberg

- Developed two custom WordPress themes from scratch with performance and SEO optimization.
- Implemented custom post types, dynamic sections, reusable Gutenberg blocks, and theme options panel.
- Ensured cross-browser compatibility and SEO-friendly structure throughout.

Shopify E-Commerce Stores — Shopify, Liquid, JavaScript, CSS

- Built conversion-focused Shopify stores with custom theme development and payment gateway integration.
- Optimized checkout experience, product page structure, and mobile responsiveness for increased conversions.

WordPress Multi-Site Collection — WordPress, WooCommerce, Elementor, PHP

- Developed diverse WordPress websites including e-commerce stores, blogs, and portfolio sites.
- Integrated WooCommerce for online retail, with custom theme and plugin customization for specific client needs.
- Executed SEO optimization and performance tuning across all sites.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

2021 – 2025

University of Jhang | Jhang, Punjab, Pakistan

- Completed final year project on AI-based Phishing Detection using hybrid ML (BERT + CNN).

LANGUAGES

Urdu (Native) English (Fluent)
